Under this agreement for 2014
Marlborough State School will receive

$6,198

This funding will be used to guarantee that

- 100% of Year 3 students who are not on Individual Learning Guarantees will achieve at or above National Minimum Standards in literacy and numeracy on the 2014 NAPLAN tests.
- 100% of students on Individual Learning Guarantees will achieve all of their goals by the end of 2014.
- 100% of students in Years 5 and 7, not on Individual Learning Guarantees will achieve within 20 points of the average national gain in literacy and numeracy in 2014.

Our strategy will be to implement

- A language development program across Years 1-2 (and Prep in Semester 2). This will improve students' awareness of words and sounds and increase skills in listening, reading and speaking.
- An intervention program across Years 3-7, using the language development program, for those students identified through internal data collection at risk of not achieving the National Minimum Standards in NAPLAN.
- A fortnightly review of student progress using the language development program to monitor improvement and set new targets.

Our school will improve student outcomes by

- Employ a teacher aide to deliver the pre-literacy metalinguistic program to individual students or small groups to target concepts identified through the fortnightly data collection. $6198
